

SEALS LEAKAGES

MADE IN
GERMANY

RADIATOR STOP LEAK

Radiator Stop Leak seals leaking radiators, heat converters, water pumps and flexible hoses. Radiator Stop Leak is compatible with all antifreeze brands.

BENEFITS:

- ✓ Effectively seals leaks in radiators, pumps, and flexible hoses.
- ✓ Seals leaks in the radiator and heater core.
- ✓ Safe for sensors and valves.

APPLICATION AREA	CONSUMPTION	TREATMENT TIME
For use in all water-cooled engines.	10.1oz sufficient to treat cooling systems of 4 – 8 liters capacity.	Works during operation.

APPLICATION NODES

Shake well before use. Add the product to the coolant. Start the engine and open the heating valve and run engine for 4-8 minutes. After successful sealing process please check the coolant level.

Content: 10.1 fl.oz

Units per case: 24 pieces
