# AIR CONDITIONING FOAM CLEANER

AIR CONDITIONING SYSTEM CLEANER.

Surface active cleaning foam for professional and effective cleaning of the interior of the air conditioning system. Removes residues and mold and kills fungus and bacteria. Neutralizes unpleasant odors.

## BENEFITS:

- ✔ Effectively cleans and disinfects the A/C system.
- ✔ Eliminates unpleasant odors, bacteria, and microorganisms.
- ✔ Optimizes A/C cooling performance.

APPLICATION AREA	CONSUMPTION	TREATMENT TIME
Air Conditioner Foam Cleaner has been especially developed for the quick and easy cleaning of air conditioning units in cars, trucks and buses etc. Simplest application because the air conditioning unit must not be dismantled.	8.80 oz for 1 application.	approx. 15 minutes.

## APPLICATION NODES

Before application switch on full heating mode to dry the condenser (approx. 5-10 min.) then switch off the engine. Shake well before use. Insert the adapter into the drainage hose. Spray the complete contents into the condenser unit. After approx. 15 minutes reaction time the cleaning process is finished. Please observe the car manufacturers' service recommendations for cleaning the air conditioning unit. Recommended application every 6 months.
