HIGH - PERFORMANCE

THROTTLE BODY CLEANER

HIGH-PERFORMANCE FORMULA.

High Performance formulation for effective and material protective cleaning of throttle body. Quickly and effectively removes oil and grease deposits from the surfaces within seconds. The product greatly improves the operating characteristics of the treated section and therefore reduces the fuel consumption and provides a stable idling.

BENEFITS:

- ✓ Gently removes sticky residues such as oil, soot, and grease.
- ✓ Evaporates in seconds without leaving any residue.
- ✓ Ensures optimal throttle body performance.

APPLICATION AREA	CONSUMPTION	TREATMENT TIME
Cleaning of throttle bodies.	Dependent on contamination.	approx. 30-60 seconds.

APPLICATION NODES

Shake well before use. Spray evenly onto the parts to be treated and allow taking effect for a few seconds.
